

Ceramic Mini DIY Kit Instructions

SUPPLIES

Paintbrushes

Paint

Glaze

Start by painting your main color using the foam brush provided. It is best to apply 2-3 thin coats. Before moving on to the next step we recommend turning your piece upside down to check for missed spots. Using detail brushes, add in any extra details.

Allow your project to dry completely and then apply the glaze provided and let it dry again.

Add a battery operated tea light and enjoy!

Now step back and admire your creation! Take a photo, share with your friends on Social Media, and tag us [@thecreativegetaway](https://www.instagram.com/thecreativegetaway) because we love seeing your creations!

*Thank you so much for supporting
my small business!
Happy Crafting!*
