

# *Shiplap Interchangeable Instructions*

*Step 1* Using a sponge paint brush, cover the entire base of the sign white. Don't worry about the lines, just paint the whole thing.

*Step 2* Take your toothpick and run it across the shiplap lines to remove the paint and make the lines nice and clear and crisp. Repeat steps 1 and 2 if needed.

*Step 3* Grab a white wedge, dip it into the brown paint and paint the ring and both sides of your stand. If you want it to look more like a stain, apply the brown paint with a damp paper towel. Assemble your stand once it is dry.

*Step 4* Once the ring is dry, take the super glue and place a little on the back of the ring and place on the base. Center it from side to side and just a little bit towards the bottom so the greenery won't get in the way of the insert.

*Step 5* Place the greenery and burlap ribbon together however it looks good to you. Take the piece of twine and wrap it around the middle of the greenery and ribbon to secure together to make a cute bow.

*Step 6* Take a little super glue and put some on the back of the ribbon and glue to the top of your shiplap circle frame!

*Step 7* Take the top layers of the 3D inserts, a white wedge, and the paint color of your choice. Dip the white wedge into the paint, dab off the excess paint, and dab up and down on the words/design until covered. Let dry and repeat. Try to keep paint off the edges of the words/designs. Since these are laser-cut pieces the sides do not cover well. Repeat this step for all of your inserts.

*Step 8* Take the base layer of the inserts, a white wedge (or your sponge brush), and the paint color of your choice. Dip the white wedge into the paint, dab off the excess paint, and dab up and down until covered. Let dry and repeat. If you choose, you can also use a damp paper towel to spread the paint all over instead.

*Step 9* Take some super glue and put it on the back of the top layer of the insert and glue to the base of the insert. Place into the circle frame and enjoy your beautiful creation!

*Step 10* Take a picture of your finished project and tag us on social media @thecreativegetaway because we love seeing your creations.

*New inserts are released monthly.*
