

# KIDS CAMP PERSONALIZED CRATE KIT INSTRUCTIONS

Step 1

Use your foam brush and begin with painting your crate. Make sure to get in all the cracks the best you can and cover all sides. This may require more than one coat depending on the color you choose.

Step 2

While your crate dries, take out your 3D letters, your white sponges, and the paint color of your choice. Dab the excess paint from your sponge, use light coats of paint, and dab up and down (don't smear) on your letters. Be mindful not to get paint on the edges of the cutouts. Since these are laser-cut pieces the edges do not always cover well. Once they are painted, set them aside to dry.

Step 3

Once your crate is dry, grab your stencil, flip it over so that it is face down and carefully (and slowly) peel off the back. Think of it as a big sticker and you are taking the back of the sticker off. Be very careful and make sure that all of the gray stencil material stays down. Once the sticky part of the stencil is exposed, flip it over and place it on your crate. Once it is in place press it down really well. You can use a debit card (or something similar) to "squeegee" it down.. Then slowly peel off the white layer, making sure the gray stencil material stays in place. Now you are ready to paint!

Step 4

Use the sealer and a white sponge to SMEAR (not dab) a THIN layer over your stencil. This will help keep your lines nice and clean and minimize bleeding under your stencil.

Step 5

Next, take out your paint and the rest of your white sponges, dip your sponge into the paint, wipe off the excess paint, and then DAB up and down (don't smear) on the stencil. Don't use too much paint as it works best with 2 thin coats! Less is more! Once it is completely covered with a 2-3 thin coats, you can peel off the stencil. It does not have to be completely dry for this step. Use a toothpick to remove any stencil pieces that are left behind.

Step 6

Once everything is dry, use the glue provided to glue the word "THINGS" to your crate. This is SuperGlue so be very very careful.

Step 7
