

# Watermelon Mini Decor Kit Instructions

**Step 1** Using your foam brush paint the background/edges of your sign white. Set this aside to dry. Rinse and dry your brush because we will use it again for your watermelon.

**Step 2** Paint the center of your watermelon and the center of your rolling pin pink.

**Step 3** Next, using your smaller brush, paint the handles of your rolling pin and the watermelon rind green.

**Step 4** When your white background is dry, place your SUMMER stencil face down (lines facing up) and carefully remove the back layer making sure that none of the gray material is left on the backing. Think of this as a sticker, once the backing is removed, flip your stencil over and place it on your board. You have room to adjust until you press it down. Use a credit card (or something similar) to press it down. Then peel the top layer of transfer tape off making sure all of your stencil stays on the board.

**Step 5** Once your stencil has been applied to the board, take your white sponges and dab the wider end into your paint color of choice, wipe off the excess paint, and then lightly dab up and down on the stencil. Don't use too much paint as it works best with 2 thin coats! Less is more! Once it's covered with a couple of thin coats, you can peel off the stencil, use a toothpick to help with removing any of the smaller pieces .

We used a pink, light green, and dark green pattern for this step, but feel free to switch it up if you'd like. Repeat this process for your rolling pin and watermelon slice as well.

\*Tip\* If you carefully remove your stencil on your watermelon slice, you can reuse it to add seeds to the other side as well.

**Step 6** Use the double-sided glue dot to apply your bow to your rolling pin.

**Step 7** Now enjoy your adorable new summer decor. These make the perfect addition to a tier tray, mantel, or table centerpiece. Make sure to take a picture and tag us on social media @[thecreativegetaway](https://www.instagram.com/thecreativegetaway) because we love seeing your finished projects.

*Thank you so much for supporting  
my small business!
