

# XOXO Envelope Kit

## Instructions

- Step 1** Remove your individual pieces from the frame of your project. Using the foam brush, paint the pieces of the envelope white. Rinse & dry your brush. Then paint the heart dark pink. Let these pieces dry.
- Step 2** Next, using the white wedges, paint the remainder of your pieces. Wipe off the excess paint and dab up and down gently on the pieces to cover them, but be mindful to not get paint on the edges of the cutouts. Since these are laser-cut pieces the edges do not always cover well. Once they are painted, set them aside to dry.
- Step 3** Using your white sponges again, paint your wood beads and let them dry.
- Step 4** Using the chip brush, dry brush the light pink on the heart to give it a distressed look. To dry brush, simply dip your brush and wipe off the excess paint so that your brush is almost dry and make light brush strokes switching up your starting point so that one side isn't painted heavier than the other.
- Step 5** Rinse & dry your chip brush, and follow the same steps above to add white distressing to the frame and XOXO.
- Step 6** Once all of your pieces are painted & dry, use the glue provided and assemble your project as shown below. Glue the frame down first, add the rest of the pieces like a puzzle, and glue them down as you go.
- Step 7** When all of your pieces are glued down, string your beads as shown below.
- Step 8** Now step back & admire your new Valentine's Day project. Make sure to take a picture of your creation and tag us on social media [@thecreativegetaway](https://www.instagram.com/thecreativegetaway) because we love seeing your creations.

*Thank you so much for supporting  
my small business!*
